RE: Park Place Property Management

To Whom It May Concern:

Park Place Property Management is currently managing three different residential properties, which I own, consisting of 26 individual rental units.

They have done an excellent job in leasing my properties, in a prompt and professional manner. At the same time, they have been reliable and have paid close attention to the everyday details of my properties.

I can confidently recommend Park Place Property Management as a trustworthy and professional property management provider, and experts in their field.

Sincerely,

Colby Halker
